

Evodyin fixing CHG

Evodyin fixing CHG is a formaldehyde free after-treatment agent for improving the wet fastness properties of reactive dyes and direct dyes. It can not only improve remarkably wet fastness on cotton, but also enhance dye fastness on silk, wool, cotton and viscose.

Nature Poly ethylene polyamine cationic resin

Appearance Yellow wish liquid

Ionicity Cationic

pH 6.0-7.0

Solubility Easily soluble in water

Characteristics

1. Greatly improve wet fastness of fabric after treatment.
2. No effect on color fastness of fabric after treatment.
3. Can use it with cationic and nonionic softer in the same bath.
4. Free of formaldehyde and APEO, environment friendly.

Application	Padding	Evodyin fixing CHG	10-50g/L Dry at 100°C
	Dipping	Evodyin fixing CHG	1.0-5.0% 40°C for 20-30min

Storage

If stored properly in its original sealed packaging the shelf life is at least 12 months. Storage temperature at 0- 40 °C will cause an increase of the color number. Once the package barrel is opened, it should be used as soon as possible, if not, please seal the left well.

Safety

We know of no ill effects that could have resulted from using this product for the purpose for which it is intended and from processing it in accordance with the current practice. According to the experience we have gained up to now and other information at our disposal, the product does not exert any harmful effects on health, provided that it is used properly, due attention is given to the precautions necessary for handling chemicals, and the information and advice given in our Safety Data Sheet are observed.

Labelling

Please refer to latest Safety Data Sheet for detailed information on product safety.
